

Lighthouse Preparatory Academy

2011-2012 Course Books Buying Guide

Ordering books need not be a daunting task! All of the information necessary to purchase required textbooks and literature books for Lighthouse Preparatory Academy classes is provided in this Course Book Buying Guide. There are a variety of places from which to purchase materials, some of which are listed below. LPA does not endorse any particular vendor and encourages you to be knowledgeable about each supplier's backorder policy, shipping rates, and return policy. Most vendors will provide a catalog at no cost and offer both traditional and online shopping.

Many materials (both new and used) are available for purchase at home school conventions, support group book sales, online auctions, and from individuals, both local and online. Retail prices listed in this guide are generally from a publisher's site, but there are many options in purchasing materials, some which may result in significant savings over retail price. You may also qualify for a teacher's discount at bookstores.

It is of particular importance to make sure the correct edition is purchased. Additionally, a publisher may offer more than one program in a specific discipline. Therefore, please pay particular attention to the title. ISBN listings are provided (as much as possible) for both the older (pre-2007) format (10 digits) and the newer (2007+) format (13 digits.) Both ISBN's are for the same book.

Please check at the beginning of each section (Mathematics, Social Studies, etc.) for any specific notes regarding curriculum. Courses with a "Teacher Designated Materials" notation are for classes where a teacher is given the flexibility to select materials (with Board and/or Administrative approval). The information necessary to purchase the required materials will be provided with sufficient time to purchase the items. Courses with a "Teacher Supplied Materials" notation do not require purchasing of books or materials.
