

Lighthouse Preparatory Academy

2019-2020 High School Course Book Buying Guide

Ordering books need not be a daunting task! All information necessary to purchase required textbooks and literature books for Lighthouse Preparatory Academy classes is provided in this Course Book Buying Guide. There are a variety of places from which to purchase materials; some are listed below. Lighthouse does not endorse any vendor and encourages you to be knowledgeable about each supplier's backorder policy, shipping rates, and return policy. Most vendors will provide a catalog at no cost and offer both traditional and online shopping.

In some cases, we can buy the students' books cheaper, since we order in bulk. We have listed all the books that are needed, but we have noted when the class fee will cover the books, so you do not need to purchase those on your own.

Many materials (both new and used) are available for purchase at home school conventions, support group book sales, online auctions, and from individuals, both local and online.

It is particularly important to make sure the correct edition is purchased. Additionally, a publisher may offer more than one program in a specific discipline. Therefore, please pay attention to the title. ISBN listings are provided, as much as possible, for both the older (pre-2007) format (10 digits) and the newer (2007+) format (13 digits).

Please check at the beginning of each section (Mathematics, Social Studies, etc.) for any specific notes regarding curriculum. Courses with a "Teacher Designated Materials" notation are for classes where a teacher is given the flexibility to select materials (with Board and/or Administrative approval). The information necessary to purchase the required materials will be provided with sufficient time to purchase the items. Courses with a "Teacher Supplied Materials" notation do not require purchasing of books or materials.
